

At King's we really value the wide variety of backgrounds that our pupils come from. To make our fees affordable for as many families as possible, we work hard to keep fees as low as we can, whilst still providing small class sizes, excellent teaching and superb facilities. In March 2024 when VAT on fees was becoming an increasingly likely outcome we were able to assure our parents that if VAT was introduced, the extra cost payable by parents, inclusive of VAT, would be only 9% above the September 2026. These fees are illustrated below and areinclusive of VAT. They are effective from 1st January 2025 and, as promised, will remain unchanged until summer 2026. Raising the BarThe Labour Government has confirmed its policy to introduce VAT onto school fees for all independent schools, with effect from January 2025. Kings has been planning for this possibility for a considerable period and we do realise how important it is to give clarity and reassurance to families when faced with such uncertainty. As explained above, when VAT is applied in January 2025, the total fees to be paid (inclusiveVAT at 20% where it applies) will increase by 9% compared with the September 2024 fees. This impact is significantly less than what will be possible at most other independent schools. The only exception to this will be for Reception (Year 0 in the Junior School) where the fee will be increased over two years to match that of Years 1 and 2. It is expected that the January 2025 fee structure as described would run through to summer 2026. Raising the BarThe Labour Government has confirmed its policy to introduce VAT onto school fees for all independent schools, with effect from January 2025. Kings has been planning for this possibility for a considerable period and we do realise how important it is to give clarity and reassurance to families when faced with such uncertainty. As explained above, when VAT is applied in January 2025, the total fees to be paid (inclusiveVAT at 20% where it applies) will increase by 9% compared with the September 2024 fees. This impact is significantly less than what will be possible at most other independent schools. The total fees to be paid (inclusiveVAT at 20% where it applies) will increase by 9% compared with the September 2024 fees. only exception to this will be for Reception (Year 0 in the Junior School) where the fee will be increased over two years to match that of Years 1 and 2. It is expected that the January 2025 fee structure as described would run through to summer 2026.
