Im using Babbel to learn Spanish from scratch and to refresh my German from school. The Spanish course has been excellent well-structured lessons, great podcasts (though I do wish there were more!), and an overall polished experience. With German, I didnt connect as well. The instructors voices werent quite to my liking, and much of the content felt a bit too Berlin-focused. I wouldve loved to see more regional variety. I keep wondering, though will there ever be a final test or assessment to officially track progress? That said, Babbel is a strong, user-friendly language-learning app. Date of experience: April 18, 2025Solid 4 stars. Bought subscription thinking live lessons was still a thing but it isn't so it's just a basic language learning app nowDate of experience: June 10, 2025I like Babbel because there is a wide choice of lessons, podcasts etc so I can choose what I want to learn each day. Personally I would like more practice at conversation. Date of experience: June 18, 2025My experience is very good so far but I wish there was a C1 level or longer texts, to better prepare the TELC exam.Date of experience: June 18, 2025The Spanish language course is very easy to use with lots of vocabulary practice and conjugating verbs etc. I signed up for another online competitor but Benbel is by far the best.Date of experience: June 18, 2025Good lessons well structured and easy to understand at the same time informative.Date of experience: June 18, 2025I'm very happy with Babbel. I enjoy maintaining my German streak. It's sad to see Babbel live has ended, because lots of people loved it. I just hope Babbel keeps on going and doesn't pull the plug on everything. Date of experience: June 18, 2025Detailed learning of grammar. Handy tips for formal and informal conversations. Multiple ways to learn. Quite an enjoyable experience. Date of experience: June 18, 2025Babbel is great for grammar but not so fantastic for learning nouns. The review function is also quite limited to specific phrases. Date of experience: June 17, 2025At Trustpilot, it's all about human content. This business can also access our AI-assisted response tool which helps them draft replies. For me your new version of the portuguese course is somewhat confusing. Once I press the button and I have pronounced the sentence, the system goes on to the next sentence leaving me no time to repeat or think about what I have just learned. This is absolutely irritating and not positive for my learning proces. But then halfway through course appears the red Continue button again and make it possible for me to chose to think about what I am saying. That means that in this (and the only one) situation I can use the return button to control the proces, which to me is very useful and nice. I hope you will ASAP return to the old way of the subscriber being in control of the system. I have noticed that other learning systems have begun using AI to for instance make it possible to have a conversation with the system. I think that would be a good thing to consider. Else my general and overall perception of Babbel is that it is a good and professional language system that has helped me a lot. Date of experience: June 14, 2025Hello Claus, Thanks for taking the time to share your feedback. You can contact our support team via email or visit the Babbel Help Centre. We're here to help with any concerns or questions you might have! At the moment you can have conversations with our AI partner in French, German, Italian, Mexican and European Spanish. Kind regards The Babbel Team I think Babbel is a good product but the service is atrocious! Paid for a year and it was taken twice from my bank! I sent a email a week ago asking to raise a complaint and still no reply! I even suggested keeping the 2nd error subscription and transferring to a relative but no reply! Chatbot is awful - I have asked for a human and in the end I was so frustrated I told them to cancel both the subscriptions. After 24 hrs I got a reply asking if I wanted to cancel both????? I replied yes (for the 3rd time) then 24 hours later the human asked me again if I wanted to cancel both!!!! There is a 20 day cancellation policy and at this rate the 20 days will be up! Now I've paid for 2 subscriptions and cant access any!!!! Hopefully a human will respond to this and resolve! Replying to Reply - As I said, I did send 3 emails now to Babbel support over a week ago and no reply! Replying to 2nd reply. I have DMd 2 separate platforms and no response. Still no reply to any of my emails! Can someone please deal with this in a professional manner instead of just fobbing me off. It appears that there is no customer service accountability with Babbel. Date of experience: June 09, 2025Hello, Our team is currently experiencing an extremely high amount of emails, so it may be taking longer than usual to receive a reply. We apologize for any inconvenience this may cause! You can also send us a DM via one of our social media channels. Kind regards, The Babbel Team Learning Italian. Upper Beginner / Lower Intermediate level. Well structured. Builds up vocabulary and grammatical structure at a pleasing, manageable rate. The programme actually teaches the language effectively, unlike other internet programmes. The use of a variety of voices is much appreciated as is the wide variety of photographs covering different ages, genders and racial groups. The main negative aspect is that some features regularly do not work, chiefly the Guided Conversations which often freeze so that spoken responses cannot take place. Please, Babbel, rectify this, as it is spoiling an otherwise excellent experience of language learning. Date of experience: June 12, 2025Hi there, Thank you for taking the time to share your feedback. Please contact us at support@babbel.com with more details, and we'll make sure to inform the relevant team. Thank you! Kind regards The Babbel Team Date of experience: June 12, 2025Hi Anna, We truly understand your frustration and want to stress that this was a difficult decision for us and one that we did not want to take lightly. We sincerely apologize for any inconvenience and appreciate your understanding as we navigate this transition. We value your feedback and take it seriously. The highlight of the Babbel app is Sens Podcast series. I am an upper beginner / lower intermediate Italian language student and I find this podcast very informative and at the right level for me. Its a perfect balance as I am learning the language as well as learning about Italy at the same time. The only disappointment is that it only goes for one series. Why not do more covering other towns and cities? I find the level of the other podcasts too advanced with multiple hosts speaking at a fast pace with changing topics. Although I can slow the speed, its still too fast. Overall love the app. Date of experience: June 11, 2025Hi Sam, Thanks for taking the time to send us your feedback. We've noted your suggestions and are happy to work on future improvements. Best of luck with your studies! Easy, informative and at your own pace Date of experience: June 12, 2025Great learning experience easy to follow Date of experience: June 11, 2025I like the podcasts and the new AI partnered conversations. Would love to have more offers or packages (like the lifetime) for live classes. Date of experience: June 11, 2025Hi Antonela. We're happy to hear you're enjoying Babbel. We advertise several offers in our newsletter. Best wishes! I go through the lessons using the listening choice as it helps to hear the phrases being pronounced correctly. The lessons are short which makes it easier to do. I like the simplicity of the style as it makes it easier to learn. The only problem is that as I worked my through the newcomer and beginner section, I found that it got difficult quite quickly and I needed to go back over some of the lessons. Date of experience: June 11, 2025It's great that you've had so much success with Babbel! Best of luck with your studies! This app stands out from all others I've tried because it provides the best explanations for new grammar and language-specific nuances. It also maintains a fun and engaging feel, rewarding users for completing their daily lessons. I hope the owners of Babbel will consider adding a Greek course in the future! Date of experience: June 11, 2025Thank you very much for taking the time to share your review here! We have no plans to add new languages at the moment. We've noted your request. Best wishes! I like many things in Babbel, especially flash cards to memorize new words. I wish they could also add the option to create the vocab with my own words. Date of experience: June 11, 2025Hi Olena, Thank you for sharing your review here. We've noted your suggestion! Best regards, Babbel Team
