After finishing second in Group A at the 2025 FIFA Club World Cup, Inter Miami CF will meet French powerhouse Paris Saint-Germain in the Round of 16 on Sunday at Atlanta United's Mercedes-Benz Stadium. How to watch & stream When Sunday, June 29 | 12 pm ET/9 am PT Where Mercedes-Benz Stadium | Atlanta, Georgia The Herons are the first MLS team to reach the Club World Cup knockout rounds, and now they'll look to progress against a Group B winner that's fresh off a historic treble – one including Ligue 1 and UEFA Champions League titles. The PSG vs. Miami winner reaches the quarterfinals on July 5 at Mercedes-Benz Stadium, moving closer to the July 13 final at MetLife Stadium. Additional tournament wins net teams more of the unprecedented \$1 billion prize pool, as well as global notoriety in the expanded tournament featuring 32 teams from six confederations. Group A runner-up: 1W-0L-2D (5 points) 0-0 draw vs. Al Ahly 2-1 win vs. FC Porto 2-2 draw vs. Palmeiras The Herons gained momentum throughout Group A, ultimately becoming the first-ever MLS team to reach the Club World Cup knockout rounds. After goalkeeper Oscar Ustari was the hero in a 0-0 draw with Al Ahly, a Lionel Messi trademark free kick sealed a 2-1 comeback win over FC Porto. The latter result made Miami the first Concacaf (and MLS) team to beat a European side in an official competition. Up against Palmeiras in a pivotal Group A finale, Luis Suárez and Tadeo Allende scored in a 2-2 draw to keep this magical run going for head coach Javier Mascherano's team. Now, Messi gets a PSG reunion after spending 2021-23 at the historic French club. Following that stint, the iconic No. 10 made his transformative move to Miami. Group B winner: 2W-1L-0D (6 points) PSG have already dispatched one MLS team, overpowering Seattle in a 2-0 win at Lumen Field. Goals from Khvicha Kvaratskhelia and Achraf Hakimi sealed first place in Group B. That victory marked a return to business as usual for PSG, who controlled their match vs. Botafogo but couldn't solve the reigning Brasileiro Série A and Copa Libertadores champions in a 1-0 defeat. Head coach Luis Enrique's side made a statement of intent in their opening contest, soaring to a 4-0 triumph over fellow European powerhouse Atlético Madrid. In that match, midfielders Fabián Ruiz and Vitinha got on the scoresheet. PSG have played without star forward Ousmane Dembélé, who's recovering from a hamstring injury. He is among the favorites to win the 2025 Ballon d'Or award. The Herons qualified for the knockout phase by finishing second in Group A, with some Lionel Messi magic in victory over Porto and draws with Al Ahly and Palmeiras ensuring them safe passage to the last 16. Unfortunately, after being handed a favorable group, their luck has run out as they prepare to face the all-conquering PSG. The French giants dominated both domestically and on the continent during the 2024-25 campaign and are many people's favorites to win the Club World Cup. Despite a surprise defeat to Botafogo on Matchday 2, their thrashing of Atlético Madrid and convincing win over Seattle Sounders secured them comfortable entrance into the knockout rounds. Luis Enrique boasts the most formidable forward line in the competition and they should, on paper at least, waltz into the last eight. But the Club World Cup has already conjured a few surprises and Inter Miami need another one to surface on Sunday in Atlanta. Here is Sports Illustrated's guide to this Club World Cup clash. Whether he starts against Inter Miami remains to be seen but he should feature in some capacity. Dembélé is PSG's only fitness concern and it was 19-year-old Senny Mayulu, who scored in last month's Champions League final and in the win over Atlético in PSG's Club World Cup opener, who replaced him last time out. He will compete with both Bradley Barcola and Gonçalo Ramos for a starting berth should Dembélé only make the bench. PSG predicted lineup vs. Inter Miami (4-3-3): Donnarumma, Hakimi, Marquinhos, Pachó, Mendes, Neves, Vitinha, Ruiz, Doué, Barcola, Kvaratskhelia. Messi will be the difference-maker against his former side. / Hannah McKay-Reuters via Imagn ImagesMessi was hoping to inspire the Herons to an upset against his former side, for whom he made 75 appearances in all competitions—a total he's nearly surpassed at Inter Miami). Close friend and former Barcelona ally Luis Suárez provided a goal and assist against Palmeiras in the final group game and will need to share the creative burden. Drake Callender, Yannick Bright, Gonzalo Luján and David Ruiz will miss out against PSG, while defender Ian Fray is also a doubt with a groin injury that saw him miss the Palmeiras draw. Jordi Alba has made cameos in the last two matches after recently returning from injury and is pushing for a start. Inter Miami predicted lineup vs. PSG (4-4-2): Ustari; Weigandt, Aviles, Falcon, Allen; Allende, Redondo, Busquets, Segovia; Messi, Suárez. Inter Miami will be aiming to give a strong account of themselves against PSG, even if progression to the quarterfinal looks immensely difficult. They will need to be defensively rigid and rely on individual brilliance at the other end of the pitch to escape with their pride intact. PSG showed they're not invincible in defeat to Botafogo during the group stage but they still dominated that fixture despite the loss. They simply have too many weapons for Inter Miami and they should find the back of the net more than once against Javier Mascherano's side to book a last eight meeting with either Flamengo or Bayern Munich. The Argentinian international forward joined the French giants, and now first-time European champions, from the club he represented since childhood, Barcelona. PSG's coveted European success was not forthcoming, and Messi headed for new pastures with his 2023 move to Major League Soccer. Now, Messi faces a PSG side shorn of many of the Galacticos recruited to seal European glory, but full of youthful exuberance and riding the crest of their Champions League wave. Al Jazeera Sport takes a closer look at the match. Why does Messi's Miami vs PSG carry such weight? When PSG meet Inter Miami, it will mark a rare reunion of European football greats, all layered with old loyalties, recent regrets and the chance for Lionel Messi to settle a score. Sunday's game features a compelling contrast of eras - a PSG side powered by youth and energy fresh off their maiden Champions League title, and an Inter Miami team built around ageing-but-iconic former Barcelona stars. On the PSG touchline, Luis Enrique comes face to face with four players he once led at Barcelona: Messi, Luis Suarez, Jordi Alba and Sergio Busquets. They are all now reunited under Miami coach Javier Mascherano, another figure from Luis Enrique's treble-winning era at Camp Nou. "Luis Enrique is a phenomenon," Alba said this week. "I'm excited to see him and will give him a hug, but when the ref blows the opening whistle, we'll try to beat him." Suarez, now 38, reflected on his former manager's impact: "I already had a competitive DNA, but he injected even more into me," he said. Lionel Messi during training before the match against PSG [Hannah McKay/Reuters] Do the Barcelona contingent have history with PSG? In another layer of intrigue, Miami's contingent of former Barcelona players were all part of 2017's "Remontada" against PSG. That was PSG's darkest night, when Barca thrashed them 6-1 in Paris in their last-16 Champions League tie. That was when Miami's veterans were at their peak. Now, they rely on memory and rhythm, while PSG's core has been reshaped by a rising generation: Bradley Barcola, Desire Doue and Vitinha have helped inject fresh energy into Luis Enrique's system, culminating in a Champions League triumph just weeks ago. How did PSG fare in the group stage? The Parisian side arrive in Atlanta after a 1-0 loss to Brazil's Botafogo in the group stage, which raised questions about fatigue following a long European season. Though PSG remain heavy favourites on paper, that defeat showed cracks in a squad that has played more high-stakes matches than most of their rivals. PSG took their group with wins in their opening games against Atletico Madrid and Seattle Sounders. How did Inter Miami fare in the group stage? Inter Miami finished second in their group behind Palmeiras with one win and two draws to their name. The Messi-inspired 2-1 win against Porto was crucial to their progress. Can Miami's Argentina axis take down PSG? "It will be an honour for me facing a great coach, one of the greatest I've had in my career," said Mascherano of Luis Enrique. Now in his first major club coaching role, Mascherano brings an emotional edge and tactical sharpness to a Miami side that, while physically limited by age, can still threaten, especially with Messi in form. The Argentina great endured a turbulent two-year stint at PSG after leaving Barcelona in 2021. Though he won domestic silverware, Messi never found peace in Paris and, after his World Cup win in 2022, some fans turned on him. "I didn't enjoy myself at PSG," Messi told reporters earlier this year. "It was a tough period." Mascherano believes that memory still drives him. "When something's stuck in his mind, Messi gives a little extra," he said this week. Messi is pictured with PSG teammates including Neymar, Marquinhos, Marco Verratti, Kylian Mbappe, Achraf Hakimi and Sergio Ramos after winning the 2023 Ligue 1 title in France [Benoit Tessier/Reuters] What went so wrong for Messi at PSG? PSG had made it to the Champions League final and then semifinals in the two seasons prior to Messi's arrival, so he looked like the final piece in the jigsaw. Instead, they went backwards with him in the side, going out of Europe's elite club competition in the last 16 two years running. Having to fit in Messi, with his estimated annual salary of 30 million euros (\$35.2 million) after tax, as well as Neymar and Mbappe, may have increased the star appeal, but it weakened them as a team. Towards the end, the Barcelona legend was even being jeered by some sections of the PSG support who felt Messi's commitment to the cause was not what it should have been. Messi was a PSG player when he inspired Argentina to World Cup glory in Qatar in late 2022, but there were only flashes of his genius at club level in France. His statistics stand up to any scrutiny, with 32 goals and 35 assists in 75 appearances, and he did win two Ligue 1 titles while helping increase PSG's value as a brand. Miami coach Javier Mascherano, meanwhile, believes the unhappy memory of his time in Paris could spur Messi on. "It's clear that for us it's better if he plays angry, because he's one of those players who, when he has something on his mind, gives an extra effort," Mascherano told ESPN. How did PSG fare last season? PSG's stunning 5-0 demolition of Inter Milan in Munich at the end of last month, which allowed them to win the UEFA Champions League for the first time, completed an incredible treble-winning season for the Qatar-backed side under the coaching of Luis Enrique. How did Inter Miami fare last season? Miami finished as the club with the most points in Major League Soccer's (MLS) regular season, handing them a place at the Club World Cup instead of LA Galaxy, who won the MLS Cup, which is regarded as the highest prize in the MLS. FIFA announced Miami's addition to the Club World Cup in October after they broke MLS's regular-season points record with a 6-2 win over New England Revolution to reach 74 points, one better than the previous record set by New England in 2021. PSG team news Ousmane Dembele has just resumed training after overcoming a hamstring injury, but may not even be fit enough for the bench. Goncalo Ramos and Bradley Barcola are vying to start with Desire Doue and Khvicha Kvaratskhelia in. Youngster Senny Mayulu was selected for the match against Seattle in Dembele's role. Inter Miami team news Jordi Alba has returned from injury and will challenge youngster Noah Allen for the left-back position. Drake Callender, Gonzalo Lujan and Yannick Bright are all still sidelined. Veteran goalkeeper Oscar Ustari will continue to deputise for the former.
