A unique 12-digit identification number, the Aadhaar card is issued by the Unique Identification Authority of India to Indian citizens, containing personal, demographic, and biometric details. This essential document serves as proof of identity and address, facilitating access to government subsidies, passport acquisition, and various benefits. Its convenience lies in its online availability through e-Aadhaar cards, which can be accessed at any time without hassle. You can use UMANG app to access Aadhaar services at any time and from anywhere across the country. The Unified Mobile Application for New Age Governance (UMANG) is a government initiative that provides various citizen-centric services, including those related to Aadhaar. The app allows you to verify your Aadhaar details, check enrolment status, confirm email/mobile number, and retrieve your Aadhaar number. To utilize these services, follow the steps below: Firstly, download UMANG app from play store/app store on your smartphone or visit its official website at . Once you log in to MY Aadhaar section, enter your Aadhaar details along with captcha to receive an OTP on your registered mobile number. Upon verification, you'll be able to access various Aadhaar services. Alternatively, if you want to download e-Aadhaar using Virtual ID (VID), follow these steps: 1. Select 'Virtual ID' from the dropdown menu. 2. Enter your 16-digit VID and captcha code as displayed on the page. 3. Click on 'send OTP' to receive a one-time password (OTP) on your registered mobile number or email address. 4. Verify the request using the OTP, then click on 'validate and download.' 5. After validation, you can successfully download your e-Aadhaar in PDF format, which will be protected with a password. If you have lost or forgotten your Aadhaar number (UID)/Virtual ID/Enrolment Number (EID), don't worry; you can still download e-Aadhaar using date of birth and name. However, make sure that the mobile number linked to your account is active to receive OTPs. Aadhaar Card Downloading Online: A Simple Process When Aadhaar card downloads are completed using a mobile number along with date of birth and name, this is a quick and easy method. Here's how the process is done - First, select the "Aadhaar Number/Enrolment ID" option. Provide full name, mobile number, and email address. Next, enter the captcha verification code in the relevant box and click on "Send OTP". One time password will be sent to your registered aadharic mobile number. Enter the OTP received in the relevant box and click on "Verify OTP". Once verification is done, the Aadhaar card or enrolment ID will be sent to your registered aadharic mobile number as well as aadharic email address. In this way, users can easily go back to "Download Aadhaar" option under "Get Aadhaar". Here, they can download their e-aadhaar by using either 'Aadhaar Number (UID)' or 'Enrolment ID (EID)'. To obtain an Aadhaar number, follow these steps: Visit the official UIDAI website and select the "My Adhaar" option. Fill in the name on your Aadhaar card, registered mobile number or email address, and Captcha for verification. Click "send OTP," and enter the generated code to receive your Aadhaar number via SMS. Alternatively, if you don't have a registered phone number: Visit the UIDAI website, select "My Adhaar," then "Order Aadhaar reprint." Enter your 12-digit Aadhaar number and complete the Captcha verification. Select "My number is not registered" and enter an alternate number or non-registered number to receive an OTP. Enter the OTP, preview your Aadhaar card, verify it, make a payment, and track your application status. You can get a reprinted Aadhaar card sent to your registered mailing address via India Post, which is expected to arrive in 5 days. Once you have accepted your request, you can download e-Aadhaar or regular Aadhaar on myaadhaar.uidai.gov.in or the UIDAI website. To do this, go to "Download Aadhaar," then "My Aadhaar." You can also use your enrollment ID or virtual ID after enrolling for Aadhaar. Once you've downloaded the card, you'll find it in "My Downloads" on your phone/computer, which requires a password that is the first four letters of your name (in capital letters) and your birth year (in YYYY format). The Aadhaar card, issued by UIDAI, serves as a crucial identity document for Indians. Looking to download your Aadhaar card online? Start by clicking "Send OTP" to receive the verification code on your registered mobile number, then download e-Aadhaar by verifying the OTP and selecting "Verify and Download". Alternatively, if you have a Virtual ID (VID), choose it from the download page and enter the VID to download your Aadhaar PDF. To check the status of your Aadhaar download or ensure its success, use the "Check Aadhaar Status" option on the UIDAI website. Q: Is downloaded e-Aadhaar considered valid proof? A: Yes, it is legally valid and serves the same purpose as a physical Aadhaar card. Q: What if I've lost access to my registered mobile number? A: Update your mobile number at an Aadhaar enrollment center. Q: What is the password for the downloaded Aadhaar PDF? A: It's the first four letters of your name (in uppercase) followed by your birth year. Q: Can I download Aadhaar without an OTP? A: No, OTP verification is essential for security and to confirm your identity. Q: How many times can I download my Aadhaar card? A: There is no limit; you can download it as many times as necessary. Q: Is there a fee to download Aadhaar online? A: No, downloading Aadhaar from UIDAI's official site is free.
