Blues piano sheet music

Hi there and welcome to our website featuring an impressive collection of Blues Piano Sheet Music. We're a non-profit platform catering exclusively to blues piano enthusiasts, where we share high-quality transcriptions made by expert musicians who possess a more refined ear than myself. All donations we receive are used to expand our repertoire with even more exclusive and hard-to-find blues piano transcriptions, ensuring the continued operation of this website. The production process is quite time-consuming, and each transcription costs anywhere from \$300 to \$1,000, depending on length and complexity. We started this venture as a way for everyone involved in the blues community to pool our resources together, allowing more sheet music to be made available than would have been possible otherwise. Your support will not only contribute to the growth of this collection but also grant you access to one of our rarest Blues Piano Sheets. Please donate today and get ready to "Keep The Blues Alive" along with us! Each PDF file is downloadable instantly, allowing you to print it out as needed. To receive your sheet music, follow these steps: METHOD 1: After completing the PayPal process, check the "Order Received" page for a download link. If needed, click on the "return to merchant" option available in PayPal to get back to that page. METHOD 2: Keep an eye out for an email titled "Order receipt" from "Blues Piano Sheets." In this message, you'll find another download link to access your sheet music; be sure to check your junk mail folder if you miss it. If issues arise or you're unable to download, please don't hesitate to contact us via our "Contact Us" page. Our latest additions include the Christmas Specials: Henry Butler, Otis Spann & John Mayall. These exclusive arrangements are now available for immediate purchase and printing. Don't forget that this offer is limited time only during the holiday season. Most popular sheet music includes classics like "I'll Fly Away", "Trouble In Mind" and "I'll Drown in My Own Tears". You can browse all sheet music or download our free apps for iOS, Android, Mac, and PC to access your sheet music anywhere with features like transposition, text & highlighter markup, and adjustable audio/video playback. Organize your music into folders and set lists, and more! I created this Blues Piano Sheet Music website and YouTube channel because I realized many piano players worldwide loved Blues Piano but struggled to learn the notes or didn't have time. Critics may say "Blues comes from the soul" but I believe learning through notation can be beneficial for those who need it. Born with a gift, sure, but less than 1% of people were born with that ability. Our goal is to "Keep The Blues Alive" and provide resources for advanced piano players to learn professional-sounding blues. We'll feature music from legendary artists like Otis Spann, Pinetop Perkins, and James Booker, as well as rising stars in Blues and Boogie Woogie like Chase Garrett, Luca Sestak, and Dan Popek. Stay tuned for news, tips, and updates on our YouTube channel, Blues Piano Sheets.
